Hatboro-Horsham High School
Class of 2008

PROFESSIONAL EXPERIENCE

Ruby on Rails Engineer

Sierra Rails (Remote) | August 2022 - Present

A software development agency which specializes in building software solutions for startup founders.

- Develop, upgrade, and maintain Ruby on Rails applications for clients.
- Collaborate with cross-functional teams to design and implement software solutions.
- Responsible for the development of a new feature which allows users to tag other users in posts. This was estimated to bring in an additional 10% of new users.
- Improving code quality by increasing test coverage.
- Implementing the best practices for security and performance optimization.

Ruby on Rails Engineer

Agency of Learning (Remote) | March 2023 - Present

A small non-profit technology development agency dedicated to open-source Ruby on Rails projects, including the Ruby for Good Casa Application.

- Collaborate with other developers to forecast available work and create stakeholder value.
- Building improved navigation functionality for better volunteer and supervisor experience.
- Improving mailer previews to assist the quality assurance team.

Open-Source Contribution Engineer

Railsdevs (Remote) | April 2022

An open-source reverse job board specifically for Ruby on Rails developers.

- Played a key role in building the Welcome-Email system for the Railsdevs project to make the onboarding process easier and more efficient.
- Collaborated with the development team to design and implement the automated email functionality.
- Demonstrated proficiency in Ruby on Rails and email integration.
